Our plan for 2018/19	6

## Introduction

The General Optical Council is the regulator for the optical professions in the UK. We currently register around 29,000 optometrists, dispensing opticians, student opticians and optical businesses. Our role is to protect and promote the public's health and safety. Our regulatory functions and our values are described below and further information on our approach to regulation, the environment in which we work and our strategic objectives is provided in our strategic plan<sup>1</sup> for the period April 2017 to March 2020.

---

<sup>1</sup> The strategic plan is published on our website:  
[https://www.optical.org/en/about\\_us/strategic\\_plan/index.cfm](https://www.optical.org/en/about_us/strategic_plan/index.cfm)

## Our Values

### Responsible

We inspire confidence because:

- We make clear, well-reasoned, evidence based decisions
- We account for our actions and are open to scrutiny
- We apply our resources in a targeted and proportionate manner.

### Forward thinking

We make a difference because:

- We pursue defined goals and measure our results
- We are progressive, innovative and agile in our ways of working
- We achieve and deliver more by working collaboratively
- We are a learning organisation committed to continuous improvement.

### Principled

We build trust because:

- We gain respect through our credibility, integrity and high standards
- We listen openly, act responsively and communicate honestly
- We behave consistently and fairly to everyone
- We foster a positive and productive culture

# Our Mission, Vision and Objectives

## Mission

To protect and promote the health and safety of the public

## Vision

Optical professionals are equipped for the roles of the future, our regulation is targeted at risks to the public's health and safety and we are an organisation that is accessible and easy to work with.

### Learning & development of optical professionals

Deliver a strategic review of optical education and training and implement changes to ensure that optical professionals are fit to practise in line with our standards throughout their careers

### Targeted approach to regulation

Build our evidence base and use the full range of our regulatory levers in a proportionate way to address risks to the public

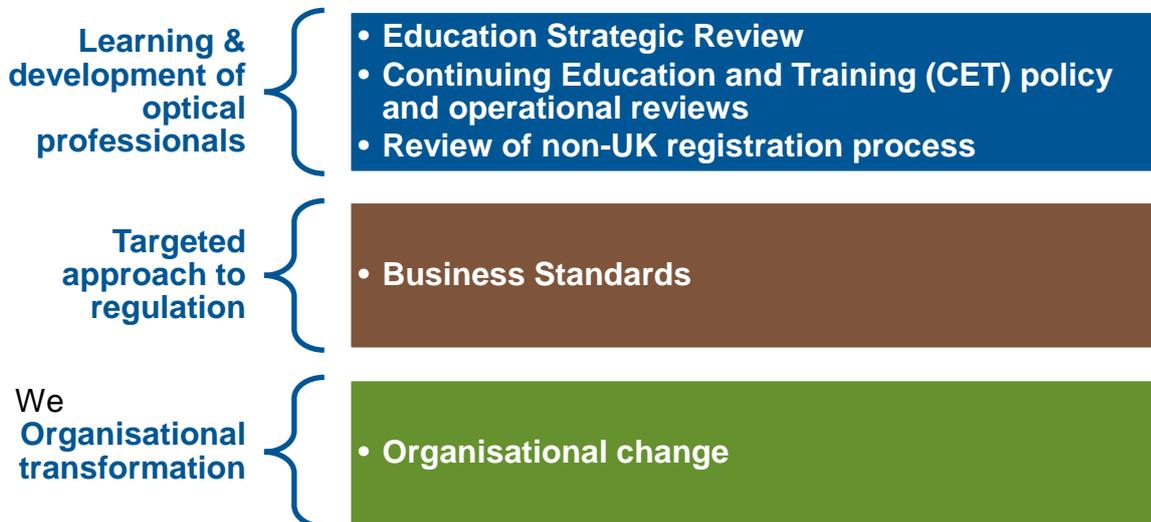

### Organisational transformation

Deliver high quality, efficient services to the public and registrants underpinned by a culture of evaluation and continuous improvement

GOC Strategic Objectives

# What we want to achieve in 2018/19

In the second year of our strategic plan we are focusing on the following five projects. These are grouped under our three strategic objectives. We will also be focused on the effective and efficient fulfilment of our regulatory, statutory and support functions and on building our capacity and capability.

identify four key stages in a project lifecycle: scoping; execution; implementation; and evaluation. The table below shows the phase that each project will be in during 2018/19.

Project phase			
Scoping	Execution	Implementation	Evaluation
	Education Strategic Review		
	Continuing Education and Training (CET) policy and operational reviews		
		Review of non-UK registration process	
	Business Standards		
Organizational change			

Project	Objectives, outcomes and planned activity
<b>Education strategic review</b>	Deliver a strategic review of optical education and training and implement changes to ensure that education programmes and qualifications leading to GOC registration equip students to meet patients' future needs, as technological change and the increased prevalence of enhanced services alter the roles that optometrists and dispensing opticians play in delivering eye care. In 18/19 – finalise a new system of education and training for optical students and commence implementation.

## GOC Business Plan and budget 2018/19

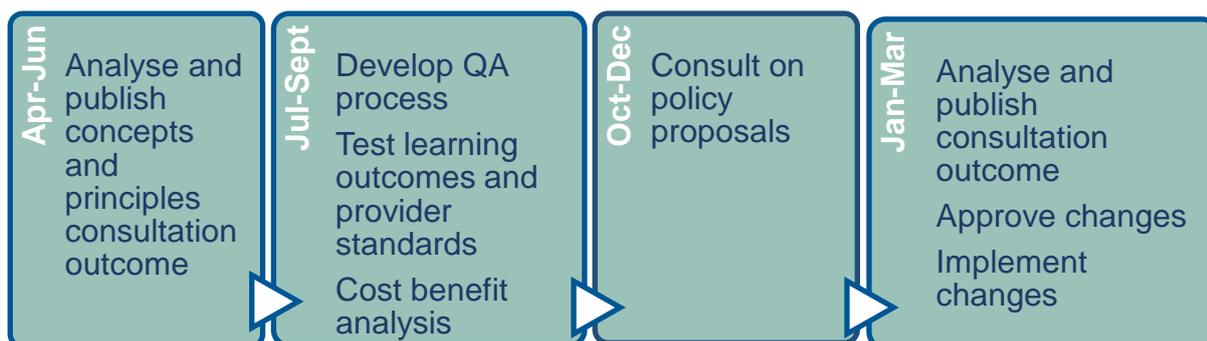

<b>Continuing Education and Training (CET) operational improvement and policy development</b>	Implement changes to ensure the scheme operates effectively and registrants are safe to practice and encouraged to focus on continuous professional development. In 18/19 – develop changes to the CET system to further promote continuing professional development while ensuring ongoing fitness to practice, carry out a tender for the IT system supporting the CET system, and implement improvements to operational processes.
<b>Review of non-UK registration process</b>	Ensure that our processes for registering non-UK applicants are fit for purpose and comply with existing legislation so that non-UK qualified registrants meet the UK requirements for registration and are safe to practise. In 18/19 - implement revised non-EEA routes to registration and evaluate the project.
<b>Business Standards</b>	Develop new standards for optical business registrants which reflect good practice and are flexible enough for care to evolve so we are confident that individual registrants practise in accordance with our standards. In 18/19 - develop and promote awareness of new business standards.
<b>Organisational change</b>	Devise and implement changes that address external issues, and deliver significantly improved outcomes for patients and the wider public, through improved operational efficiency. In 18/19 evolve better processes and workflows that deliver improved outcomes for patients and generate operational efficiencies. Continue to invest in IT with specific focus on improving our operating systems and working practices and developing a comprehensive case management system.

# 2018/19 Year in View – Projects

## Learning and development of optical professionals

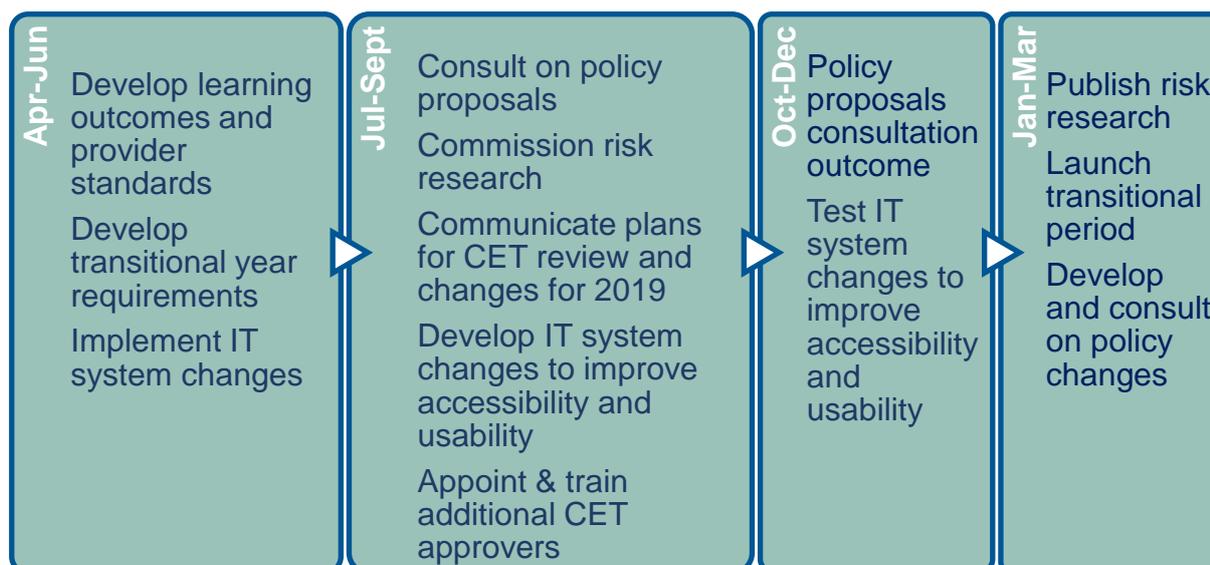

### Education Strategic Review

<b>Project objective:</b>	Deliver a strategic review of optical education and training and implement changes
<b>Project outcome:</b>	Newly qualified registrants are safe to practise and equipped for future roles

### Continuing Education and Training (CET) policy and operational reviews

<b>Project objective:</b>	Implement changes to ensure the CET scheme operates effectively, can accommodate rapidly changing scopes of practice and changes to undergraduate education
<b>Project outcome:</b>	Our CET scheme operates effectively, registrants are safe to practice and encouraged to focus on continuous professional development and reflective practice

# 2018/19 Year in View – Projects

## Learning and development of optical professionals

### Review of non-UK registration process

<b>Project objective:</b>	Ensure that our processes for registering non-UK applicants are fit for purpose and comply with existing legislation
<b>Project outcome:</b>	Non-UK qualified registrants meet the UK requirements for registration and are safe to practise

## Targeted approach to regulation

### Business Standards

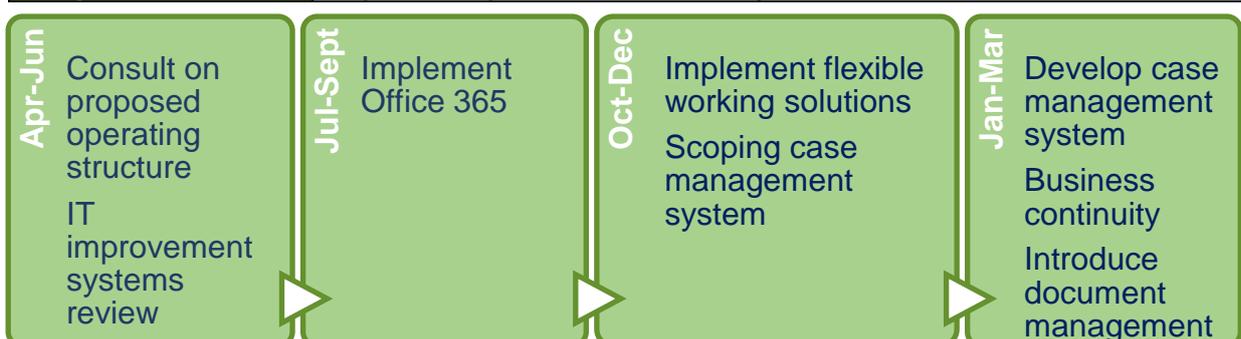

<b>Project objective:</b>	Develop new standards for optical business registrants which reflect good practice and are flexible enough for care to evolve
<b>Project outcome:</b>	Registrants practice in accordance with our standards

## Organisational Transformation

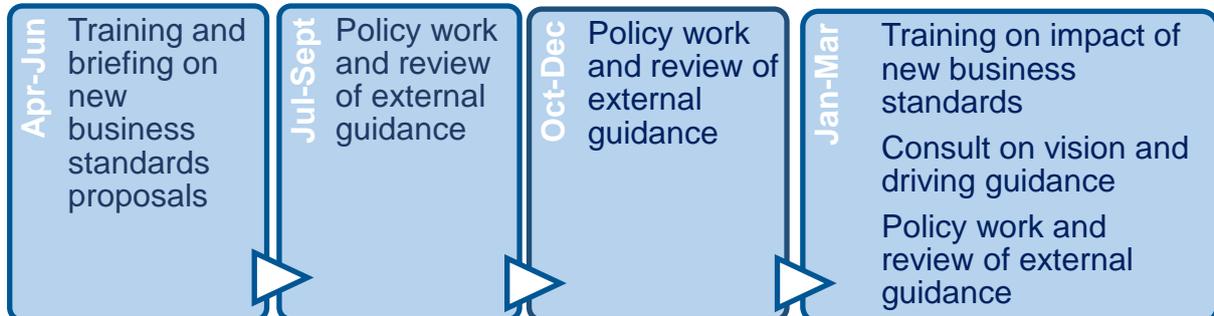

### Organisational change

<b>Project objective:</b>	Devise and implement changes that address external issues, and deliver significantly improved outcomes for patients and the wider public, through improved operational efficiency
<b>Project outcome:</b>	Improved operational efficiency
